

# Fishing in Lake Revsund

**Long – approx. 1700 characters**

**Revsundssjön lake** is the place where memories are created and simmer. A first-time stop at the lake often becomes a recurring tradition for those wanting to explore it in full. The lake is dotted with islets, rocky outcrops, sandy beaches and cliffs. It's also a never-ending source of good and completely true fishing stories.

In winter you can go ice-fishing on Revsundssjön lake, and in summer you can either fish from the shore or rent a boat. Aside from Revsundssjön lake, there are other lakes and forest tarns in the Lake Revsund area that are known by fishing enthusiasts far and wide, both in Sweden and abroad.

Perhaps the most famous of these is **Gimån river** which meanders some 80 kilometres over rapids and waterfalls. It's meant to be one of the best places for trout fishing in Europe, and it also contains grayling. You can buy a fishing pass and find more information about the waters in the area at <https://gimriver.se/>. We promise that if you love fishing, you'll be kept busy for a long time in Lake Revsund.

Apart from being a place for fantastic fishing, Gimån river is also known for being the hub of timber floating in Jämtland from the 1840s until the 1970s. Remains from those times can still be found. After the timber floating ended the river was restored to create a more favourable environment for the fish.

Ice-fishing through holes in the lake ice is a popular activity in winter. Every Easter an ice-fishing competition is held next to Camp Viking campsite, and it attracts many fishing enthusiasts. But be careful on the ice, especially at the beginning and the end of the winter season.

The magnificent nature of the watercourses in Lake Revsund simply must be experienced. There are plenty of waterside accommodation options if you want to stay for a while. Go take a look online at <https://www.brackenasta.se/> for more information and to find out how you book your overnight stay at one of the famous fishing places.

### **Medium – approx. 920 characters**

Anglers from all over the country who return here year after year cannot be wrong. The Lake Revsund area is home to vast, famous fishing waters that seasoned anglers have spoken fondly of for many a year. Revsundssjön lake and Gimån river are never-ending sources of good and completely true fishing stories. If you want to catch a large trout or a fine grayling, this is the place to come. And you can't miss the chance to go ice-fishing on Revsundssjön Lake.

The most famous is perhaps the 80-kilometre **Gimån river** with its rapids and waterfalls. It's meant to be one of Europe's best places for trout fishing, and also for grayling. You can go fishing in **Revsundssjön lake**, both directly from the shore and from a boat if you prefer to go further out. The lake is dotted with islets, rocky outcrops, sandy shores and cliffs.

If you're keen on fishing, Lake Revsund will keep you busy for a long time to come. Buy a fishing pass and find more information about the fishing waters at <https://gimriver.se/>. Take the chance to stay a while and sleep along the shore. Check out <https://www.brackenasta.se/> to find the most suitable accommodation for you.
